The **Asset-Based Community Development Institute (ABCD)** is at the center of a large and growing movement that considers local assets as the primary building blocks of sustainable community development. Building on the skills of local residents, the power of local associations, and the supportive functions of local institutions, asset-based community development draws upon existing community strengths to build stronger, more sustainable communities for the future.

# Community Development

*Go to the people  
Live among them  
Learn from them  
Love them  
Start with what they know  
Build on what they have;  
But of the best leaders  
when their task is done  
The people will remark  
“We have done it ourselves.”*
